Verse 1

When I'm in the valley low
Gone as far as I can go
Seems I can't climb the mountain all alone
Then I hear this voice within say
Say I forgive you of your sin
You can make it across the river
And climb the mountain high

Chorus

Neither height nor depth
Can separate you from the throne
Though the mountain seems so high
And the valleys may get rough
All the signs point toward home
And my child it won't be long
You can make it across the river
And climb the mountain high

Verse 2

Sometimes the path's hard to find
And the hill's hard to climb
We may slip and sometimes we may fall
As we search for new strength
There stands Jesus with arms outstretched
You can make it across the river
And see what lies inside

Chorus
