

Going Home For Christmas

Author Unknown

Key: C Time: 2:43

Verse 1

Just thinking about going home for Christmas
Thoughts about how it's gonna be
Special friends and loved ones will be sharing
Time together that means so much to me
Momma will be looking out the window
Daddy always greets us at the door
With open arms they welcome us back home again
Each year they seem more precious than before

Chorus

I get a special feeling thinkin' about home
Dreaming of a love that goes on and on
Some things last forever and they never seem to change
Now it's Christmas time and I'm thinkin' about home

Verse 2

Memories of home I'll always treasure
Good times only years can bring about
Happiness and warmth I remember
Make me wish that I could be there now

Chorus
