Verse 1

Out in the darkness I see a light
Guiding me onward through the dark night
Just when I think that no one cares for me
There comes the light so my eyes can see

Chorus

It's a light filled with glory
From eternity strong
It's guiding my pathway until I reach home
In the midst of the darkness
When the storms cover me
His light is shining that I may see

Verse 2

Day may seem sad and night may be long
When my heart is aching and I've lost my song
And then comes the morning, the breaking of dawn
His light just gets brighter as He leads me home

Chorus
