## *Verse 1*

I went to visit Heaven in a dream one night  
The great heavens opened and a cloud sailed in sight  
The angels hovered o'er me and took me by the hand  
And on that white cloud we sailed to visit Heaven's land

## *Verse 2*

I walked beside a wall so great and so high  
There were twelve gates of pearl all swinging open wide  
As I stepped inside the city and gazed beyond that peaceful stream  
There were ten thousand angels gathering to sing

## *Verse 3*

They stepped out on the balcony of Heaven  
Dressed in robes as white as the snow  
Then the angels sang their song to the King upon His throne  
What a glorious sight to behold

## *Verse 4*

It all seemed so real though I was dreaming  
But it all shall come true some day  
We will stand around the throne and help the angels sing their song  
Then it won't be just a visit we'll be home to stay
