Time: 2:49

## *Verse 1*

The old saint is lying on her death bed  
She knows her life is almost through  
She opens her eyes and says don't cry  
Listen what I'm telling you  
I see a great host of angels and they're descending in this room  
So don't be grieving about my leavin'  
Cause I'll see you again real soon

## *Chorus*

And I'll see you in the morning  
Over in glory don't even say goodbye  
I'm gonna see you in that hallelujah meeting in the sky  
So don't you even start to miss me  
I'm only leaving for the night  
And I'll see you in the morning  
Just across the Jordan over on the other side

## *Verse 2*

Young or old we never know  
When our final breath may come  
It might be this very night when Jesus calls me home  
I'll be missed by friends and my family  
When you lay me in the ground  
But I'll see you on a bright clear morning  
When I hear that trumpet sound

## *Chorus Twice*

## *Tag*

And I'll see you in the morning  
Just across the Jordan over on the other side
