Verse 1

The battle for the top suddenly took a turn
Soldiers at my side, threw down their swords to run
When the enemy came in like a mighty flood
They forgot the promise, there's safety in the Blood
I won't give up the fight; I'm fighting for the right
I'll do anything, anything but surrender

Chorus

If it brings me to my knees, God will hear my plea
He will raise up the standard, against the enemy
I'm not waving a flag, throwing in the towel
That's all right Devil just go ahead and howl
Don't place any bets, cause it's not over yet
I'll do anything, anything but surrender

Verse 2

I've got my armor on, my sword and my shield
Satan there ain't nothing to keep me from God's will
My feet have been shod, in the gospel of peace
You know in my time of trouble, Heaven I can reach
Gonna put you on the spot, come on give it your best shot
I'll do anything, anything but surrender

Chorus Twice
